SUMMARY

Full Stack Web Developer with a background in project management and leadership. Passionate about developing well designed websites with attention to user experience and mobile responsiveness. Detail oriented and collaborative problem-solver.

Technical Skills

Languages: HTML5, CSS3, Bootstrap, Materialize, ReactJS, Javascript, jQuery, Node.js, Express.js, MySQL, MongoDB, WordPress

Applications: Git, Visual Studio Code, Postman, MySQL Workbench, Robo 3T, Microsoft Office Suite, PhotoShop, Final Cut Pro

Projects

Eat-Da-Burger | <https://github.com/jennifer0101/burger> | <https://murmuring-springs-57128.herokuapp.com/>

- An application which uses a MySQL database and handlebars to allow the user to enter names of burgers and then devour those listed burgers.
- Built with HTML5, CSS3, JQuery, Node.js, Express, MySQL, Handlebars, and ORM.

Mmm-Eat in the Middle | <https://github.com/jennifer0101/Project-1> | <https://jennifer0101.github.io/Project-1/>

- An application using Google Maps and Zomato API's to enable users to enter two points on a map, and then identifies restaurants at their midpoint.
- My role in this project was developing the front end. I used Materialize to create the user interface with attention to mobile responsive design.
- Built with Javascript, jQuery, HTML5, CSS3, Materialize, and Google Maps and Zomato API's.

Neighborhood Pantry | <https://github.com/jennifer0101/we-will-be-done-by-christmas> | <https://we-will-be-done-by-christmas.herokuapp.com/>

- Collaboratively created MERN stack application that allows users to list items of extra food to give away. The user can post items and move items they want to their cart.
- My role in this project was to set up the MERN stack, and enable database connectivity. I programmed the express server, and used React extensively.
- Built with MongoDB, Express.js, ReactJS, Node.js, Auth0, Bootstrap, and Materialize.

EXPERIENCE

The common thread in my experience has been my ability to work with a variety of groups to focus broad ideas into a specific and goal oriented project or design. My strong planning, editing, and communication skills allow me to help organizations fully develop their objectives and processes in order to be successful.

Solace for Mothers, St. Paul, MN - *Co-founder*

2008 - Present

- Collaborated with a team to start a non-profit organization.
- Created the WordPress website and managed the social media account.
- Set up a peer support discussion board.
- Created and maintained a mental health professionals directory.
- Utilized strong writing skills to research and write the pages of the website.

MamaBebe, Minneapolis, MN - *Administrative Assistant*

2013 - 2019

- Maintained a WordPress website.
- Worked closely with owner of company to clarify and edit website.
- Worked independently and reliably.
- Commended for my thorough, detail-oriented work.

The Memory Locket, St. Paul, MN - *Photo Organizer*

2017 - 2019

- Transferred and organized client photos to digital storage devices.
- Worked with clients, listening to their needs, and helping them with organizational challenges.

EDUCATION
